

3. MINIMUM SCOPE OF CERTIFICATION

For the following HA Lists of Works Contractors, in addition to ISO 9001 certification, a contractor shall also be certified to ISO 14001 and OHSAS 18001 management systems:

- Building Contractors (including NW1, NW2, M1[#] and M2[#])
- Piling Contractors
- Demolition Contractors*
- Electrical Contractors*
- Lift and Escalator Contractors*
- Fire Services and Water Pump Contractors*

* - For contractors already on the List or have registered their application for admission to the List on or before 1 October 2009, a grace period of 18 months is granted for acquiring ISO 14001 and OHSAS 18001 management system certifications, i.e. they are required to be certified to both systems on or before 31 March 2011.

- For contractors already on the List or have registered their application for admission to the List on or before 31 December 2010, a grace period of 12 months is granted for acquiring ISO 14001 and OHSAS 18001 management system certifications, i.e. they are required to be certified to both systems on or before 31 December 2011.
